News, Information, Questions & Answers

- ➡ “Alexa, what’s the weather in London?”
- ➡ “Alexa, what’s the news?”
- ➡ “Alexa, why is the sky blue?”
- ➡ “Alexa, when do Manchester United play next?”

➡ **“Alexa, what’s 68 degrees Fahrenheit in Celsius?”**

➡ **“Alexa, what’s 68 pounds in kilograms?”**

Around the house

- ➔ **“Alexa, set an alarm for every weekday at 7 a.m.”**
- ➔ **“Alexa, reorder cat food”**
- ➔ **“Alexa, set a pizza timer for 15 minutes”**
- ➔ **“Alexa, remind me to walk the dog at 8p.m.”**

Thermostat

- ➔ “Alexa, what’s the temperature in the house?”
- ➔ “Alexa, set the temperature to _____ degrees!”
- ➔ “Alexa, change the temperature to _____ degrees”

➡ **“Alexa, decrease the temperature”**

➡ **“Alexa, increase the temperature”**

Works With Nest developers have created several new Alexa **Skills** for more control and convenience and there are more **Skills** coming. You'll be able to say things like; **“Alexa, tell the thermostat that I'm too hot”** so it turns down the heat a few degrees. Or you can tell Alexa that **“you're leaving”** so your thermostat will turn down to your **Eco Temperatures**. But you'll need to turn on these new **Skills** before you can use them.

Controlling your appliances

- Schedule lights, coffee machines and other appliances to turn on and off automatically.
