JOB DESCRIPTION

- POST:** Technology Training Officer
- HOURS:** Part time (15 hours per week)
- TERM:** Fixed term 12-month contract
- SALARY:** £11, 700 per annum actual (FTE £28, 080 per annum)
- LOCATION:** Homebased in Surrey.
- REPORTING TO:** CEO, Surrey Coalition of Disabled People
- ACCOUNTABLE TO:** Surrey Coalition Board
- CLOSING DATE:** Thursday 11th February 2021

Who we are

Surrey Coalition of Disabled People is led by disabled people for disabled people. Surrey Coalition aims to promote the rights of disabled people to have equality of opportunity and independence. Members are involved in a broad range of activity across the county and beyond, including co-production groups and forums, co-design of health and care service specifications, service monitoring, campaigning and influencing, technology and innovation projects, mental health and supporting and promoting projects and campaigns that are aimed at improving the health and wellbeing of disabled people in Surrey.

Introduction to the role

Surrey Coalition has been awarded funding from the Community Foundation for Surrey (CFS) Coronavirus response fund.

Funded by

**Community
Foundation**
for Surrey

Digital exclusion is recognised as a health inequality in its own right, and disabled people are disproportionately affected by it. This funding has been awarded to support disabled adults with digital inclusion during the pandemic and into the recovery period.

Purpose of the role

The over-arching purpose of the role is to enable more disabled people to use technology in their daily lives to aid wellbeing and independence.

The role is made up of 3 parts: the delivery of one to one and group training for disabled people, production of training resources including webinars and the delivery of monthly training sessions with our staff and team of volunteer Tech Angels.

Main tasks

1. Plan and conduct remote and/or face to face, one-to-one training sessions with members, covering a broad range of tasks and software packages.
2. Facilitate a weekly technology room in our virtual café, providing technology advice, problem solving, facilitating peer-support and sharing information on existing, new and emerging technology.
3. Continue to develop our 'tech library' of guides and resources that people can access in a range of formats.
4. Plan and conduct a series of technology webinars and/or video podcasts, adding this recorded content to the technology library and our YouTube channel as a resource. Focus the webinar/ video podcast on highlighting new and emerging technologies of interest to our membership.
5. Plan and conduct a monthly training session for staff and Tech Angel volunteers on a broad range of topics relating to helping beginners to use technology. To focus this training around upskilling the teams knowledge and understanding of assistive technology and its availability.

Funded by

**Community
Foundation**
for Surrey

6. To actively seek out members of the organisation who may be willing to share their experiences of different apps and devices, facilitate the production of app-reviews and or vlogs to share these insights with others.
