

GET CONNECTED, GET ONLINE

Stay connected with
friends, family and
your community

HOW DOES IT WORK?

- We give you a tablet, a smartphone or another device on long term loan.
- We lend you a 'MiFi' if you have no WiFi, along with a starter data package.
- We 'match' you with a volunteer Tech Angel.
- Your Tech Angel can support you by phone, at your home or in the community.
- We provide virtual social and activity groups and trips for you to join.

WHAT CAN I LEARN?

- You pick what interests you the most from a menu of options.
- Your Tech Angel can teach you how to: stay safe online, use your device, email or make video calls, book a GP appointment, go shopping, get active at home, apply for a bus pass and much more!

WHO IS IT FOR?

Tech to Community Connect is for adults in Surrey who are Disabled, living with health conditions, Carers and people from Black and minoritised communities.

HOW MUCH DOES IT COST?

The service is **FREE**.
