

Do you have a learning disability?

Are you over 18 years old?

Do you live in East Surrey?

Do you want to help The Coalition to improve health and social care for adults with learning disabilities?

Health and social care is about helping people stay healthy and live well.

- **Health care are medical services like doctor visits and treatments.**
- **Social care provides support with daily activities like bathing, eating, and companionship.**

If you agree:

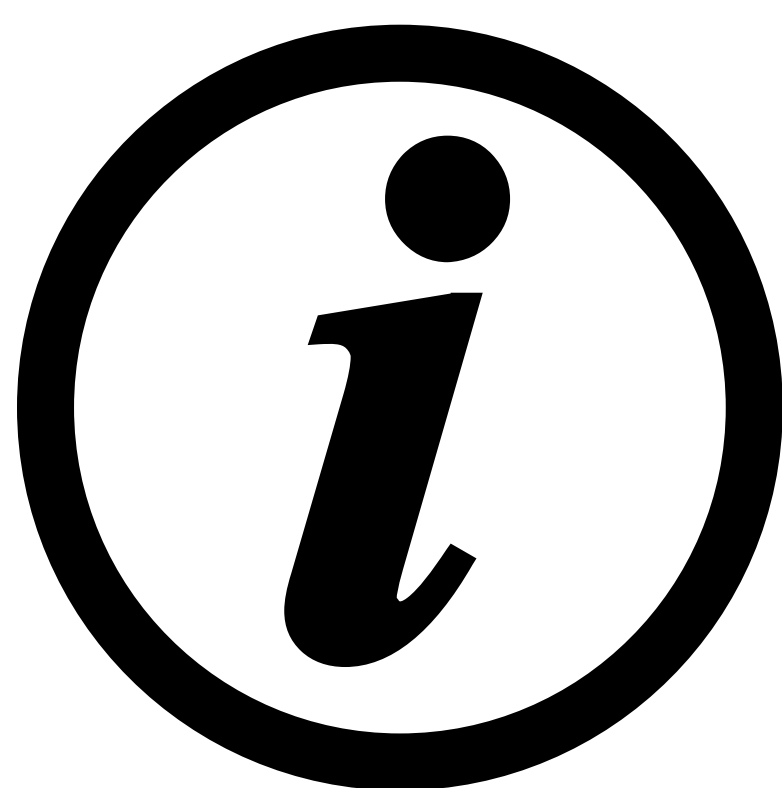

The Coalition will ask you questions about what it is like to have a learning disability in East Surrey, and how you could be better supported.

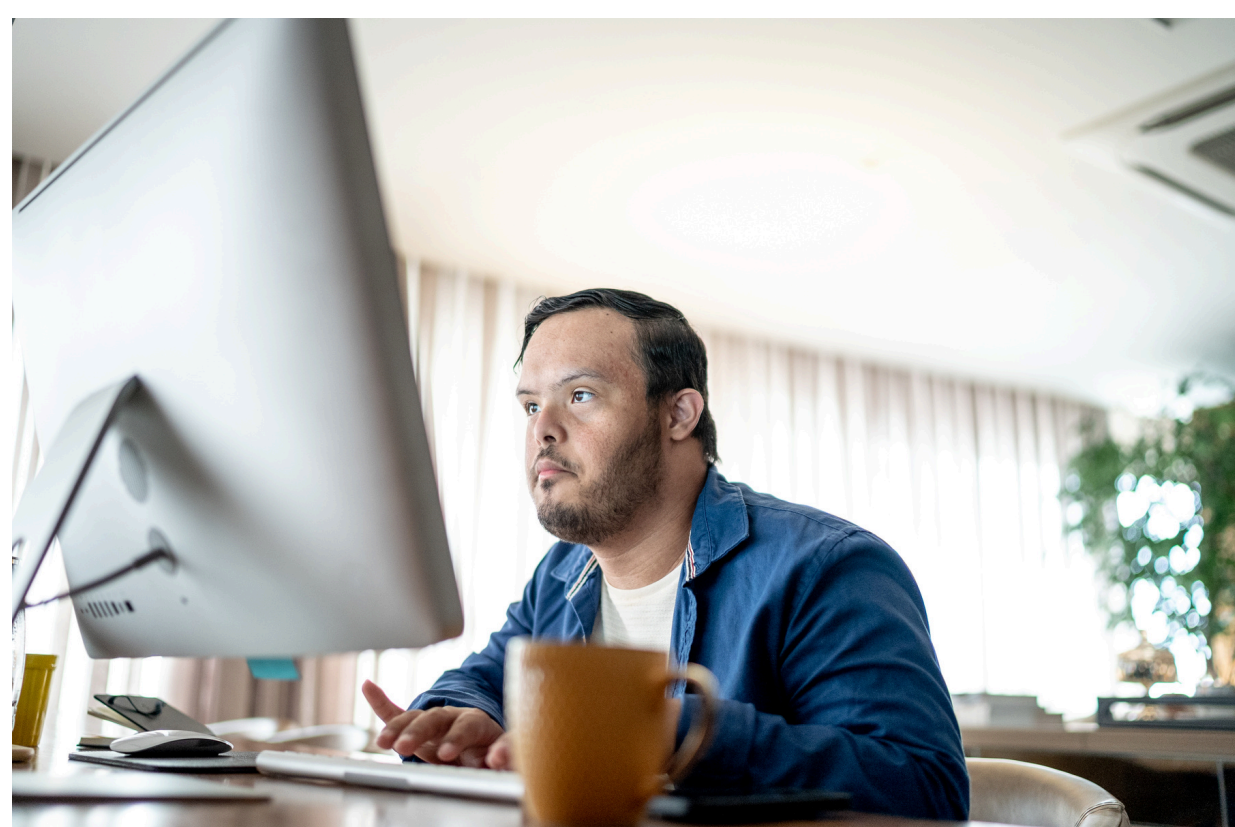

**You and The Coalition will
make recommendations for
health and social care.**

**To say thank you for sharing
your thoughts and time, The
Coalition will give you £15.**

**If you want to know more
about The Coalition's
engagement work, please
contact us.**
